3 Bedroom Home: \$ 1,250.00	\$ 1,582.50

*See ordinance on calculation of capacity fees for commercial establishments.

CITY OF AVON PARK

Highlands County, Florida

Residential Water Use Calculation Sheet

This work sheet will assist residential customers in determining the amount of water they are consuming compared to the average per-capita use.

CONSUMPTION (FROM UTILITY BILL)	(A)
GALLONS (MULTIPLY CONSUMPTION BY 1,000)	(B)
DAYS IN THE MONTH (USE ACTUAL NUMBER OF CALENDAR DAYS OR 30 FOR AVERAGE)	(C)
DIVIDE GALLONS (LINE B) BY NUMBER OF DAYS (LINE C)	(D)
NUMBER OF PERSONS IN HOUSEHOLD	(E)
DIVIDE GALLONS (LINE D) BY NUMBER OF PERSONS IN HOUSEHOLD (LINE E) PER-CAPITA WATER USE*	(F)

*Per-capita water use is the amount of water used per day, per person in the household.

The average per-capita water use for the City of Avon Park in 2022 was **88** gallons per person per day. Line (F) above depicts the usage of your household in gallons per person per day. If your usage was above that amount it may help to consider water conservation measures. If your water use is continually above 150 gallons per person per day, you may have a leak in your home or are using excessive amounts of water. Consider visiting <https://www.swfwmd.state.fl.us/residents/water-conservation> for ways to conserve and reduce the amount of water you are using.

Where to find Consumption on your bill?
